THOMAS G. PLANT SOCIETY

In 2006 The Plant Home's Board of Directors executed the Thomas G. Plant Society to recognize substantiated contributions to The Plant Home. These contributions will sustain the vision of our Founder, Thomas Plant. That vision, to provide a comfortable home for our elders regardless of their ability to pay, is as alive today as it was in 1917 when Thomas Plant built our home.

Since the renovation of the home in 2004, gifts which qualify for Thomas G. Plant Society membership include:

- Donations of \$5,000 or more
- Including the Plant Home in a will or estate plan

Such gifts confirm Thomas Plant's belief that the elderly have "earned the right to pass their declining years in ease and comfort, even though (bad) fortune, unmerited adversity or the death of relatives and friends may have left them poor in the world's goods."

The Plant Home

For nearly a century, The Thomas G. Plant Memorial Home has provided assistance, safety and security to elderly residents, many of whom would not otherwise have been able to receive the care they needed. With the completion of major renovations and the opening of a magnificent addition to the stately mansion on the Kennebec River, The Plant Home is undergoing an exciting renaissance and beginning a new era in its history.

In keeping with our mission to provide quality care for residents with needs for supportive services, The Plant Home recognizes that with the right combination of help and respect, a long, active and productive life is More possible today than at any other time in the past.

THE PLANT HOME

Proudly serving Midcoast Maine's elders since 1917
